

How to find the flying site of Karlskoga MFK

No matter what road you are using to get to Karlskoga you will end up in a big roundabout. Here you choose the road to **Filipstad** (Road no **205**).

After about 4 km of driving you will be outside Karlskoga and after another km you will find a sign on the right side of the road saying “**Modellflygplats**” (=Model airfield). Follow the sign and turn left!

Now you have to travel 500 metres on a gravel road before you find a new sign saying “**Karlskoga Modellflygplats**”. Turn left and you are at the site.

Welcome!

Karlskoga MFK
